**Re: Advice Letter No. 107 of Astound Broadband, LLC (U-6184-C)**

Astound Broadband, LLC (“Astound”) hereby submits its Advice Letter No. 107 to revise its switched access tariff in compliance with Decision No. 12-06-024, and FCC 11-161, effective as of July 1, 2012.

The tariff sheets affected by this advice letter are as follows:

**Switched Access Service Tariff**

1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 2-T	(cancels original Cal. P.U.C. Sheet No. 2-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 3-T	(cancels original Cal. P.U.C. Sheet No. 3-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 9-T	(cancels original Cal. P.U.C. Sheet No. 9-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 11-T	(cancels original Cal. P.U.C. Sheet No. 11-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 61-T	(cancels original Cal. P.U.C. Sheet No. 61-T)

Original Cal. P.U.C. Sheet No. 61B-T	(new original Cal. P.U.C. Sheet No. 61B-T)
Original Cal. P.U.C. Sheet No. 61C-T	(new original Cal. P.U.C. Sheet No. 61C-T)
Original Cal. P.U.C. Sheet No. 61D-T	(new original Cal. P.U.C. Sheet No. 61D-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 101-T	(cancels original Cal. P.U.C. Sheet No. 101-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 102-T	(cancels original Cal. P.U.C. Sheet No. 102-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 103-T	(cancels original Cal. P.U.C. Sheet No. 103-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 104-T	(cancels original Cal. P.U.C. Sheet No. 104-T)
1 <sup>st</sup> Revised Cal. P.U.C. Sheet No. 105-T	(cancels original Cal. P.U.C. Sheet No. 105-T)

Pursuant to D.12-06-024, this advice letter is a compliance filing, and eligible for Tier 1 treatment.

A copy of this advice letter is being served on CPUC Communication Advice Letter Service List and will be served on any persons upon request.

Any person may protest this advice letter to the California Public Utilities Commission. The protest must set forth the specific grounds on which it is based. Pursuant to D.12.06-024, a protest must be made in writing and received within forty-five (45) days of the date that this advice letter was filed with the Commission, and must also be served on CLC at the same time. The address for mailing or delivering a protest to the Commission is:

Director, Communications Division  
505 Van Ness Avenue, Room 3210  
San Francisco, CA 94102

If you have e-mail capability, you must also e-mail a copy of the protest to the Communications Division at [TD\\_PAL@cpuc.ca.gov](mailto:TD_PAL@cpuc.ca.gov).

The address for mailing or delivering a protest to Astound is:

Jane Whang  
Davis Wright Tremaine LLP  
505 Montgomery Street, Suite 800  
San Francisco, CA 94111  
Email: [janewhang@dwt.com](mailto:janewhang@dwt.com)

Because the changes in these revised tariff pages will reduce the company's existing rates Astound requests that this advice letter be made effective as of July 3, 2012. No person or entity will be impaired by the retroactive effect of this request because the effect of the changes identified herein will reduce other carrier's access liability, consistent with the FCC and the Commission's prior orders on this issue.

Respectfully submitted,

/s/

Appendix C  
Supplemental Advice Letter Transmittal Form

Instructions: LECs shall select one of the two options: Information Only or Tier 1. Within each option, LECs shall mark the selections(s) which apply to its filing. LECs may add more detailed narrative in the "Other" section as needed to more accurately describe its filing.

- Information Only A.L. - exempt from required rate reduction
  - Intrastate access rates below comparable interstate rates (Exemption 5.1)
  - Intrastate access rates equal to comparable interstate rates (Exemption 5.2)
  - Non-Access Reciprocal Compensation equal or below comparable interstate rates (Exemption 5.3.2)
- Tier 1 A.L. - required rate reduction
  - Adopts Access Interstate Rate Structure for Intrastate access service without assessment of transitional per minute charge on end office MOU
  - Adopts Access Interstate Rate Structure for Intrastate access service with assessment of transitional per minute charge on end office MOU
  - Does not adopt Access Interstate Rate Structure for Intrastate service and modifies one or more transitional intrastate access rates

Does not adopt Access Interstate Rate Structure for Intrastate service and modifies one or more transitional intrastate Non-Access Reciprocal Compensation rates

---

ILECs only, CLECs are exempt

Does not adopt Access Interstate Rate Structure for Intrastate service and reduces one or more transitional intrastate Reciprocal Compensation rates

**SWITCHED ACCESS SERVICE TARIFF**

---

DEFINITIONS

- 1.8 End Office T  
For purposes of this price list, with respect to each 101-XXXX code prefix assigned to the Company, the location of the Company=s “end office” for purposes of this price list shall be the point of interconnection associated with that 101-XXXX code in the Local Exchange Routing Guide (LERG). Services provided at a Trunk Gateway location (as defined elsewhere) are the functional equivalent of services provided at an End Office location.
- 1.9 End User T  
A non-carrier customer of an intrastate telecommunications or unregulated service provider.
- 1.10 Exchange Telephone Company  
Denotes any individual, partnership, association, joint-stock company, trust, or corporation engaged in providing switched communication within an exchange.
- 1.11 Intrastate Access Service  
Provides for a two-point communications path between a customer=s premises or a collocated interconnection location and an end user=s premises for originating and terminating calls within the state.
- 1.12 LATA  
A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No. 4.
- 1.13 Network  
Refers to the Company=s facilities, equipment, and services provided under this Tariff.

---

**SWITCHED ACCESS SERVICE TARIFF**

---

DEFINITIONS

- 1.19 Trunk Gateway  
The point of interface between the PSTN trunk facility and the Company defined by Common Language Location Identifier (CLLI) codes assigned to the Company as reflected in the LERG. Services provided at a Trunk Gateway location that are the functional equivalent of services provided at an End Office location. T
- 1.20 User  
Any person or entity that obtains the Company=s services provided under this Tariff, regardless of whether such person or entity is so authorized by the customer.
- 1.21 VoIP-PSTN Traffic  
Traffic exchanged between the Company and the Customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. T
- 1.22 Wire Center  
A building in which one or more end offices, used for the provision of Exchange services, are located.

---

**SWITCHED ACCESS SERVICE TARIFF**

---

SERVICE AND RATE DESCRIPTIONS

3.1 Access Services

Switched Access Service, which is available to customers for their use in furnishing their services to end users, provides a two-point communications path between a customer's premises (or a collocated interconnection location) and an end user's premises. It provides for the use of common terminating, switching and trunking facilities. Switched Access Service provides for the ability to originate calls from an end user's premises to a customer's premises (or a collocated interconnection location), and to terminate calls from a customer's premises (or a collocated interconnection location) to an end user's premises in the LATA where it is provided. Switched Access Service must be ordered separately for each LATA in which the customer desires to originate or terminate calls.

Switched access service provides for the switching and routing of interexchange traffic to or from the called party's premises, either directly or via contractual or other arrangements with an affiliated or unaffiliated entity, regardless of the specific functions provided or facilities used. The charges for such services shall be assessed at the rates set forth herein. Services may be provided directly by Company or in conjunction with an affiliated, or unaffiliated, third-party.

T

FGB Access, which is available to all customer, provides trunk side access to Company end office switches with an associated uniform 950-XXXX access code for the customer's use in originating and terminating communications.

FGD Access, which is available to all customers, provides trunk side access to Company end office switches with an associated uniform 10XXX or 101XXXX access code for the customer's use in originating and terminating communications. End users may also originate calls to a selected FGD Access Customer by dialing 1+NPA-NXX-XXXX when using the Company's presubscription service.

800 Data Base Access Service, which is available to all customers, provides trunk side access to Company end office switches in the originating direction only, for the customer's use in originating calls dialed by an end user to telephone number beginning with the prefix A800".

SWITCHED ACCESS SERVICE TARIFF

---

SERVICE AND RATE DESCRIPTIONS

3.1.A Identification and Rating of VoIP-PSTN Traffic

This section governs the identification of VoIP-PSTN Traffic that will be compensated at rates equivalent to interstate access rates, unless the parties have agreed otherwise in a separate agreement, pursuant to the Federal Communications Commission's Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov.18, 2011). Specifically, this section establishes the method of identifying such traffic, defined herein as "VoIP-PSTN Traffic," separate and distinct from any of the Customer's traditional intrastate access traffic, so that VoIP-PSTN Traffic can be billed in accordance with the FCC Order.

The VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to Company's applicable tariffed interstate switched access rates as provided in Company's FCC Tariff, unless the parties have agreed otherwise in a separate agreement.

3.1.B Percent of VoIP Usage (PVU) Factor

The Company will determine the number of relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU exchanged between the Company and the Customer. In those areas where the Company provides interconnected VoIP service to end user customers the PVU factor will be 100%. Alternatively, the Company may derive and apply the PVU as follows:

1. The Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the percentage of the total intrastate and interstate access MOU that the Customer exchanges with the Company in the State, that (a) is sent to the Company and that originates in IP format; or (b) is received from the Company and terminates in IP format. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
2. Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total access MOU in the State that the Company originates or terminates in IP format. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.

Effective:  
Resolution No

Decision No.

---

SWITCHED ACCESS SERVICE TARIFF

---

SERVICE AND RATE DESCRIPTIONS

3.1.B Percent of VoIP Usage (PVU) Factor (cont'd.)

3. The Company will use the PVU-A and PVU-B factors to calculate an effective PVU factor that represents the percentage of total access MOU exchanged between the Company and the Customer that is originated or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).

4. The Company will apply the effective PVU factor to the total intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs.

Example 1: The PVU-B is 10% and the PVU-A is 40%. The effective PVU factor is equal to  $40\% + (10\% \times 60\%) = 46\%$ . The Company will bill 46% of the Customer's intrastate access MOU at rates equivalent to those in the Company's applicable interstate switched access tariff.

Example 2: The PVU-B is 10% and the PVU-A is 0%. The effective PVU factor is  $0\% + (100\% \times 10\%) = 10\%$ . The Company will bill 10% of the Customer's intrastate access MOU at rates equivalent to those in the Company's applicable interstate switched access tariff.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the effective PVU is 100%. The Company will bill 100% of the Customer's intrastate access MOU at rates equivalent to those in the Company's applicable interstate switched access tariff.

5. If the Customer does not furnish the Company with a PVU-A pursuant to the preceding paragraph 1, the Company will utilize an effective PVU equal to the PVU-B.

3.1.C Initial PVU Factor

If the PVU factor is not available and/or cannot be implemented in the Company's billing systems by January 1, 2012, once the factor is available and can be implemented the Company may adjust the Customer's bills to reflect the PVU retroactively to January 1, 2012. In calculating the initial PVU the Company will set the initial PVU as set forth.

SWITCHED ACCESS SERVICE TARIFF

---

SERVICE AND RATE DESCRIPTIONS

3.1.D PVU Factor Updates

The Customer may update the PVU-A factor or the Company may update the PVU-B quarterly using the method set forth in subsection (C)(1), above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-A factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVU-A to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

3.1.E PVU Factor Verification

Not more than twice in any year, the Company may ask the Customer to verify the PVU-A factor furnished to the Company and Customer may ask the Company to verify the PVU-B factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-A and PVU-B factors.

The Customer shall retain the call detail, work papers, and information used to develop the PVU factors for a minimum of one year. The Customer shall make such records available to Company, upon request, as reasonably necessary for purposes of verification of the factors.

The Company reserves the right to conduct an audit, internally or with an external firm, at any time. The Customer, at its own expense, has the right to retain an independent auditing firm. In the event that an audit reveals that any Customer reported factors are incorrect, the Company shall apply the audit results to all usage affected by the audit. The Customer shall be back-billed or credited, for a period retroactive to the date that the incorrect percentage was reported, but not to exceed 12 months (and at no time prior to December 29, 2011). Back-billed amounts are subject to a late payment penalty and payment shall be made in immediately available funds by the due date printed on the invoice. Should an audit reveal that the misreported factors resulted in an underpayment of usage charges to the Company of five percent or more of the total usage charges, the Customer shall reimburse the Company for the cost of the audit. Proof of the cost shall be bills, in reasonable detail, submitted to the Company by the auditor, and such other costs borne by the Company which are reasonably attributed to the completion of the audit. Within 15 days of completion of the auditor's report, the Company will furnish a copy of the audit results to the person designated by the Customer to receive such results.

SWITCHED ACCESS SERVICE TARIFF

---

RATES

4.1 Access Service (cont'd.)

4.1.3 Switched access service (cont'd.)

G) Nonchargeable Option Features

1) Supervisory Signaling

DX Supervisory Signaling arrangement  
- Per Transmission Path

SF Supervisory Signaling arrangement  
- Per Transmission Path

E&M Type I Supervisory Signaling arrangement  
- Per Transmission Path

E&M Type II Supervisory Signaling arrangement  
- Per Transmission Path

E&M Type III Supervisory Signaling arrangement  
(available with FGD)  
- Per Transmission Path

2) Customer specification of the receive transmission level at the  
first point of switching within a range acceptable to the  
Company  
(available with FGB)  
- Per Transmission Path

<b>Appendix A: CLEC California Intrastate Transitional Access Service Charges Supporting Data Worksheet</b> revised June 21, 2012										
Show the supporting data for the Transitional Intrastate Access Service rate elements -- per 47 CFR § 51.911(b) rules										
Add rows as needed to include all relevant rate elements.										
Use separate sheets for each operating territory breakout if applicable.										
Show the relevant tariff citations in column (k) and column (l), and attach copies of the tariff sheets to this form.										
<b>Demand shown is for illustrative purposes only.</b>										
<b>CLEC: Astound Broadband, LLC</b>										
<b>Operating Territory: AT&amp;T / Verizon</b>
